

**Notes from Flip Charts
Oroville Facilities Relicensing (FERC Project No. 2100)**

The following notes were recorded on flip charts during the Environmental Work Group Meeting.

Action Items:

- Section 10 process: Terry will check out status
- Summarize what data might come from other study plans that will help evaluate predator issues
- E-mail fish disease update (Wayne Dyok)
- Send e-mail outlining next work group meeting activities

Potential PM&E Measures:

- Side channel habitat enhancement
- (Synergistic potential – use dredged material from side channel development for replacement gravels)
- Gravel from OWA (if they dredge for more ponds)
- Hatchery trays – replace with hatchery jars
- Flow fluctuations
- Expand PM&E to include other methods besides mechanical controls
- Add lands specifically for enhancement opportunities
- Alternate hatchery water source

Reaches:

Next: Thermalito outfall to Honcut Creek; Honcut Creek to Yuba River; Thermalito Forebay/Afterbay/Diversion Pool (includes OWA)

Lake Oroville and upstream tribs
